# Biozym: ImmunoGrow

*All natural prebiotic and immunostimulant to blend with feed. Enhance Immunity, Growth, and Productivity in shrimp, prawn, catfish, tilapia and other fish species*

**ImmunoGrow (IG)** is a prebiotic, a functional feed supplement suitable to blend with feed for aquaculture animals like shrimp, prawn and other fish species. IG improves growth, feed efficiency, immunological response, productivity and survivability. IG ingredients nurture the growth of gut microbiota and activate the immune system for disease resistance.

**ImmunoGrow (IG)** enhances the nonspecific immune responses considered to be the first line of defense against invading organisms. The positive shift in gastrointestinal microbial population (prebiotic effect) increase nutrient digestion and weight gain.

**ImmunoGrow (IG)** is natural, safe, and can be used in crumbled, extruded or pelleted feeds in the factory or in the field. Active components include: dried Yeast, dairy fractions, dried fermentation products, Citric acid fermentation product, Yeast extract. rich source of essential amino acids, functional complex carbohydrates, antioxidants, minerals and vitamins.

**Appearance:** Free-flowing powder with some granulation. Cream color

**Packaging Options:** 50lb multi-walled paper bags.

**Recommended dosage:** <2% (When mixed with feed.)
